DISTRICT

ALDERMAN

President Cavalier Johnson

200 E. Wells St. | Milwaukee, WI 53202 | 286-3777 | milwaukee.gov/district2 | Cavalier.Johnson2@milwaukee.gov

FALL 20

Dear Neighbor,

I hope that this letter finds you well. There is no doubt that we are in the midst of a challenging time that will define our city and our nation. The COVID-19 pandemic has further revealed the racial and economic inequalities we face every day in Milwaukee. If you are struggling due to the impacts of COVID-19 or otherwise, please see page 4 for a quick overview of COVID-19 supportive services in the city and call my office at (414) 286-3787 with additional questions or concerns. I am confident that because of the dedication of many, our city remains vibrant and resilient enough to come out of this even stronger than before.

The COVID-19 pandemic has only exacerbated the long-term epidemic of racial inequality in our county and our city. Black lives matter and I am committed to reexamining the relationship between law enforcement and the communities that they serve. In addition, I am advocating for various reforms to law enforcement policies and procedures as seen on page 2. The Common Council voted unanimously to request that the Mayor's budget provide a model for a ten-percent reduction in the Milwaukee Police Department's budget. This provides us the opportunity to truly reimagine how upstream investment in housing, violence prevention, and public health can lift up our entire city.

This past spring, I received the honor of being elected Common Council President by my peers. This leadership role allows me to have greater influence in championing city-wide initiatives, appointing Common Council members to standing committees and to city-run bodies, while continuing to represent the Second District. Please know that I am still first and foremost your alderman, and my commitment to the Second District remains unchanged.

Thank you for electing me to serve our community. I look forward to all that we can accomplish in these next four years with your support. Please don't hesitate to call my office with city service concerns, policy priorities, or additional information on COVID-19 resources. I look forward to hearing from you.

Sincerely,

Cavalier Johnson
President, Common Council
Alderman, Second District

2020 Fall Leaf Collection

OCTOBER 1ST – NOVEMBER 15TH

Leaves, brush, weeds, garden trimmings and other yard waste are banned from landfills and must **NOT** be placed in garbage or recycling carts.

During the fall rake-out period the City collects leaves for composting which conserves natural resources, saves money, and protects water quality by reducing leaves entering storm sewers.

How should I rake out my leaves?

- ▶ Loose and into the street with a 1-foot gap between the leaves and the curb.
- ▶ Away from storm drains and sewer grates.
- ▶ Add garden trimmings and weeds on top. Do NOT include grass clippings, pumpkins, litter, or bagged material.
- ▶ Separate from brush piles. Brush is not to be placed in the street.

No special request for leaf collection is necessary from **Oct. 1st – Nov. 15th**. To be collected, ensure that leaves have been raked out by Nov 15. At all other times of the year, leaves must be mulched on the property or taken to a Drop Off Center.

FROM THE

PRESIDENT'S DESK

“These are difficult and unprecedented times for our city. As President of the Milwaukee Common Council, I’m proud to both lead and support initiatives for safer elections, better health, and a stronger focus on racial equity.”

— CAVALIER JOHNSON, COMMON COUNCIL PRESIDENT

Racial Equity and BLM

Black lives matter. Across our community and our country, residents continue to demand a new way forward, a country and a city that finally meets its promise of equal opportunity and economic equality for all. We can no longer support a status quo that has created and reinforced systemic inequality and oppression of Black and brown citizens through disinvestment in our public education system, mass incarceration, and significant income and wealth gaps between Milwaukee’s white and Black residents. All while using these systems of racial oppression and disinvestment to justify the violence and death that Black and brown residents disproportionately face at the hands of law enforcement.

As an elected official, I took an oath to serve my community. It is my duty to ensure that the demands of the Black Lives Matter movement lead to lasting institutional change which addresses systemic racial inequality at its root cause. One critical aspect to this is reimagining the relationship between police officers and the communities they serve.

As such, I have passed legislation to do the following:

I also supported a Common Council resolution which directed the Mayor’s budget to model a 10% reduction in the Milwaukee Police Department and a reinvestment of neighborhood supporting services such as housing, violence prevention, and public health. I believe that we are at a critical junction to lift up Milwaukee’s communities, and thus our entire city, through a larger upstream investment to prevent our residents, especially our Black and brown residents, from ever entering the criminal justice system. This is not only a financial investment, but a necessary social investment in order to bring us closer to achieving racial and economic equality. Lifting up our Black and brown communities lifts up our entire city.

I hear you and I will continue to march with you until all residents can live in peace and prosperity, free from violence and with a path to thrive in reaching their full potential. ▀

I have passed legislation to do the following:

- ▶ Urge the Fire and Police Commission to add emotional intelligence and cultural competency assessments to the aptitude tests for evaluating Police Department recruits and to add applicant preference points based on certain score ranges in emotional intelligence and cultural competency.
- ▶ Express the City of Milwaukee’s support for Governor Tony Evers’ policing accountability and transparency reforms.
- ▶ Urge the Fire and Police Commission to adopt de-escalation and restraint policies for the Police Department in alignment with the “Eight Can’t Wait” campaign.
- ▶ Urge the Fire and Police Commission to implement an emotional intelligence and cultural competency framework and assessment criteria to be included alongside all Police Department training.
- ▶ Urge the Fire and Police Commission to redouble recruitment efforts within Milwaukee neighborhoods so that the Fire and Police departments are more diverse and reflective of the communities that they serve.
- ▶ Urge the Board of the Fire and Police Commissioners to collaborate with the Police Department to engage with community leaders to rebuild trust and discuss community-oriented strategies to addressing local civil unrest.

As I begin my second term as your alderman, I want to thank the residents of the Second District for trusting me to guide our community through your voices.

During my first term in office, I championed the following legislation:

- A single-use plastic straw "ban" to make Milwaukee more environmentally friendly. This ordinance prohibits Milwaukee bars and restaurants from automatically providing single-use, plastic beverage straws to customers.
- Creation of a Millennial Task Force to support retention of young talent and job growth in the city.
- A non-binding referendum around non-partisan redistricting to ensure voter representation in our elections.
- A city-wide ban on fee-based conversion therapy for minors, protecting LGBTQ+ youth from ineffective services that are harmful to their mental and physical health. The first of its kind in our region, this legislation has led to similar bans in neighboring municipalities.
- Creation of the Office of Early Childhood Initiatives at the City of Milwaukee. If we are to build a 21st century economy, we need to ensure that our youngest residents are given the tools they need to succeed.

President Johnson and County Board Chairwoman Marcelia Nicholson celebrate Juneteenth by painting the Black Lives Matter street mural on King Drive.

President Johnson joins local leaders in celebrating Dea Wright, Director of the City's Office of Early Childhood initiatives. Ms. Wright was honored with an Outstanding Partnership Award for bringing early learning stations into Milwaukee laundromats.

#MaskUpMKE

The Coronavirus (COVID-19) is a respiratory illness that is actively spreading in the Milwaukee community. It is spread through air droplets due to coughing or sneezing and can also live on surfaces like cardboard for 24 hours or on plastic for up to 3 days. The City of Milwaukee Health Department (MHD) continues to closely monitor and issue public health guidance to control cases of COVID-19 from rapidly spreading in our community. 

Do your part by:

- ▶ Washing your hands and high-touch surfaces often
- ▶ Avoid touching your eyes, nose, and mouth
- ▶ Keep 6 feet or more away from others in public spaces
- ▶ Avoid handshakes, hugs, large gatherings, and close quarters
- ▶ Covering your nose/mouth with a mask/cloth whenever in public

MKE Cares Mask Ordinance

The Milwaukee Common Council passed the **MKE Cares Mask Ordinance**, which requires that all persons wear face coverings in public spaces, indoors and outdoors. As a part of this ordinance, the City of Milwaukee Health Department created a free mask distribution plan for residents in need of masks. 

CITY OF MILWAUKEE HEALTH DEPARTMENT

- The Milwaukee Health Department is responsible for issuing phased reopening orders in conjunction with weekly COVID-19 data through **Moving Milwaukee Forward Safely**. To access the latest health orders from the Milwaukee Health Department, please visit: milwaukee.gov/MMFS

President Johnson joins leaders from the Milwaukee Bucks and Brewers to announce early voting locations.
/ © MilwaukeeIndependent.com

Funding for a Safe and Secure Election

President Johnson sponsored the acceptance of funding for grants which authorize the City of Milwaukee to accept more than \$3.5 million to support the Milwaukee Election Commission in administering the August and November 2020 elections. These grant funds have and will support the City in conducting secure, efficient and accessible elections during the COVID-19 pandemic. The Wisconsin Election Commission CARES Subgrant provided the City over \$300,000 to offset increased postage and operating costs due to higher levels of absentee voting in the August and upcoming November election. Funding also supported additional absentee voting outreach and education.

The Center for Tech and Civic Life (CTCL) grant provided over \$3 mil-

lion in additional funds to implement safe and secure elections in August and November in accordance with Wisconsin's Safe Voting 2020 plan. The CTCL grant was used to pay for personal protective equipment, poll worker recruitment, funding for additional election apparatus, tabulators, drive-up voting sites and additional compensation for poll workers and election inspectors. The grant will also be used to assess and bolster the administrative capacity of the City's Election Commission. These grants were instrumental in supporting voting sites.

Please call President Johnson's office at (414) 286-3787 if you are having any difficulty accessing the City of Milwaukee Election Commission or finding voting information. ■

VOTER REGISTRATION AND ABSENTEE DEADLINES

myvote.wi.gov/en-us/VoterDeadlines

REQUESTING ABSENTEE BALLOTS

Requesting an absentee ballot is a safe and secure alternative to in-person voting during the COVID-19 pandemic. If you plan to mail in your absentee ballot, mail it in as soon as possible before Election Day.

It is recommended by the City of Milwaukee Election Commission that residents who request an absentee ballot within 10 days of the election return their ballot to an **early voting location** or a **City of Milwaukee Ballot drop box** (locations are listed on page 6).

In-Person Absentee (Early Voting)

**TUESDAY, OCTOBER 20TH –
SUNDAY, NOVEMBER 1ST**

- ▶ Not all sites have the same schedule. Hours and locations listed below.
- ▶ There is NO voter registration on Saturday, October 31st or Sunday, November 1st.
- ▶ Ballot drop boxes are open 24 hours/ 7 Days a week and until 8 p.m. on Election Day.

Second District Businesses to Support During COVID-19

5XEN Super Asian Market

The 5XEN Super Asian Market, otherwise known as the Asian Market, at 6300 N. 76th Street will expand this fall for the second time in its 11-year existence. The new 20 million dollar investment in this space will expand the grocery store and upgrade the building's event space. Not only is this a critical investment in the 2nd District tax base, but it's an important cultural anchor to Milwaukee's Hmong community. The market offers customers a unique array of food, grocery and retail options. The expansion will allow for a number of new business ventures and expanded parking spaces. The project, pending city approval, will likely be completed by 2021.

President Johnson outside of neighborhood asset 5XEN market.

NYPD (New York Pizza Delivery)

Located at 6327 W. Capitol Drive, NYPD is a great spot to pick up pizza, breadsticks, and a wide variety of food options! This replaced the former Dominos at this location. It's a great addition to the Capitol Heights neighborhood.

Ketta's Kitchen

If you are looking for a great place to stop by for a wide variety of tasty options, consider stopping by Ketta's Kitchen, located at 5908 N. 76th St. This new business has a number of delicious meals ranging from hot dogs to nachos and everything in between.

Laughing Crab

The Laughing Crab is the latest addition to the many wonderful eateries at the Midtown Shopping Center. Located at 5712 W. Capitol Drive, the business has a wide selection of seafood options mixed with a Cajun flavor.

America's Best Wings

Another wonderful addition to the Midtown Shopping Center, you can now order some of the best chicken wings in Milwaukee. Located at 4119 N. 56th St.

U.S. Cellular

U.S. Cellular has opened a branch at the Midtown Shopping Center. They are located at 4138 N. 56th St. ■

Speed Hump Process

Across the 2nd District, many residents have raised concerns regarding excessive speeding and reckless driving taking place in our neighborhoods. While the city invests in comprehensive strategies to curb reckless driving, such as narrowing our streets and increasing accessibility of driver's education in Milwaukee Public Schools, we also welcome neighborhoods to petition for speed humps to reduce speed on their block. If you would like to petition for a speed hump on your block, start by calling President Johnson's office at (414) 286-3787. Residents are then typically asked to conduct and submit a speed hump survey of the homeowners on their block, however, this requirement is being temporarily suspended due to COVID-19 health considerations.

On streets that are not entirely residential, the Department of Public Works will then conduct a traffic study to monitor speeds on the block over certain time intervals and provide a recommendation as to whether or not a speed hump is appropriate based on traffic volume and speed. Traffic studies are not necessary on entirely residential

Residential speed hump.

streets. Next, the city calculates each property owner's assessed contribution to the speed hump, based on their frontage area to the street in question. The cost to install a speed hump varies, but is usually a few hundred dollars per property owner, which can be deferred for several years and then paid out over installment plans for 5 to 10 years.

From there, President Johnson's office sends out a postcard to property owners listing their individual assessment towards the speed hump and asking them if they approve or disapprove of the project. The postcard votes are then tallied and President Johnson makes his final recommendation to the Department of Public Works whether or not to support the project moving forward. Please note that certain streets which are classified as 'main arterials'

due to speed limit and traffic volume are not applicable for speed humps. A few examples in the 2nd district include W. Capitol Drive, W. Mill Road, W. Silver Spring Drive, N. 60th Street, N. 76th Street. ■

Safe Routes to Schools

The City of Milwaukee Department of Public Works has received federal grant funding to build street improvements to make walking and biking to school safer and more comfortable around eight school locations in Milwaukee including the Westland Choice Neighborhood Area which encompasses Browning Elementary, Carmen Middle/High School, Kilbourn Elementary, and Kluge Elementary.

DPW recently hosted a community walk around the Choice Neighborhood schools to get input on how to best

spend the \$75,000 available specifically for this neighborhood. The primary goal of the project is to improve safety and comfort for people walking and biking to school, and the community walk was an opportunity for students, teachers, parents, and neighbors of the school communities to provide feedback on the design alternatives DPW has prepared. Construction for the project will begin in 2021. ■

W. Fond du Lac High Impact Paving

West Fond Du Lac Avenue from North 68th Street to North 76th Street includes milling (removing) the existing pavement and resurfacing the roadway with asphalt. ■

Grantosa Drive Street Narrowing

In a coordinated city-wide effort to reduce reckless driving through infrastructure improvements, Grantosa Drive was reduced to one lane and one painted bike lane in each direction. These infrastructure improvements, known as "road diets" have been shown to significantly reduce excessive speeds and serious traffic accidents. ■

W. Hampton Avenue 60th – 76th Street

Road was resurfaced with high impact paving and Hampton Ave. bridge was improved. ■

Hampton Avenue Bridge deck pour.

60th Street Reconstruction

Beginning May 4th, 2020 the Department of Public Works started reconstruction of **N. 60th Street from W. Hampton Ave. to W. Capitol Drive**. The project will be broken into two phases, ensuring that during construction one lane of traffic remains open in each direction. The majority of this project is scheduled to be completed in

October 2020 with landscape and electrical work going into 2021. The project will include updated street lighting and traffic signs, replacement of the bridge deck over Lincoln Creek, and a bike lane in each direction. This project will affect the MCTS BlueLine & Route 76 (via N. 60th) bus service. Updates can be found at ridemcts.com //

**MORE INFO ON THE PROJECT
CAN BE FOUND ONLINE AT:**

2020 Census

Every 10 years the federal government conducts a national census to provide a population count and collect demographic data to help shape policy decisions. Census data is used to help determine how billions of federal dollars will be allocated to cities and communities including funding for healthcare, education, housing assistance, critical infrastructure, and more. Census data is also used to adjust or redraw electoral districts, based on where populations have increased or decreased, to ensure equal representation. Thus, completing the census is critical to supporting your community and ensuring accurate electoral representation.

2020 census response rates in the City of Milwaukee lagged compared to previous years. In order to help reverse this trend, President Johnson held a press conference on September 1st to announce his coordinated effort with the U.S. Census Bureau and City of Mil-

President Johnson hosts a census rally with Journey House Chief Executive Officer Dr. Michele Bria, Alderwoman Zamarippa, and Mayor Tom Barrett.

waukee Department of Administration to amplify participation for the month of September in the lowest performing census tracts. This included passing an ordinance that directs all city agencies to ask residents placing non-emergency calls for service whether they have completed the 2020 Census and directing them to do so.

Completing the survey takes about ten minutes and can be conducted online by visiting 2020census.gov, by

mail, or over the phone in over a dozen languages. President Johnson is challenging all residents to make sure they are counted – so that Milwaukee can be counted – in the 2020 Census. Join us in completing the 2020 Census today, it is vital to our supportive services and electoral representation. ■

Move Forward Milwaukee

President Johnson is an advocate of the Move Forward MKE lobbying effort which supports passing state legislation allowing Milwaukee County and its 19 municipalities, including the City of Milwaukee, the ability to pursue a binding referendum giving voters the power to decide on a 1% county sales tax increase. Such an increase would generate approximately \$160 million annually for Milwaukee County, at least 25% of which would be used for property tax relief, and support funding for public services and facility maintenance while improving our long-term financial health.

Our city and region need a stable, diversified revenue structure to retain future fiscal health. We are one of the only cities of our size to rely almost solely on property taxes for revenue. Diversifying the City's revenues will ensure that our budgets aren't devastated by sudden events or economic changes, better positioning us to provide critical services, particularly during a crisis like the COVID-19 pandemic. This sales tax increase would also ensure those working in or visiting our city are contributing their fair share to public services. ■

Millennial Task Force

In November of 2019, President Johnson created the Millennial Task Force to investigate the loss of young, college educated people moving out of the city of Milwaukee. The 16-member task force is charged with assessing the major reasons Millennials choose to leave or stay in Milwaukee after college, analyze programs and policies designed to attract and retain talented, young individuals and make recommendations to the Common Council regarding potential legislative changes and other measures needed to address it.

A 2019 report by the Office of Workforce Development indicated that Milwaukee and the state of Wisconsin in general are struggling to attract and retain young, educated workers. The number of 25- to 34-year olds living in Milwaukee decreased by 1.8% between 2010 and 2015 while that age group increased by 3.8% nationwide. Additionally, between 2010 and 2014, approximately 9% of 25- to 29-year olds moved out of Wisconsin, exceeding the respective national out-migration rate of 7%.

The task force has met in-person and virtually in 2020, and looks to present a number of recommendations to the public in the coming months. By retaining a young, educated, talented, and diverse workforce, Milwaukee can add jobs and increase economic growth throughout the city. ■

LEARN MORE AT moveforwardmke.com and contact your state legislators if you would like to advocate for local control over diversified revenue streams to provide property tax relief and support critical services and infrastructure in Milwaukee.

Are YOU a HIGH SCHOOL TEEN who's PASSIONATE ABOUT CHANGE?

LEADERS WANTED!

The City of Milwaukee Youth Council represents students in their schools and neighborhoods and they meet with leaders like the Mayor, Common Council, School Superintendent, business owners, and community groups to advocate for youth.

They work with community-based organizations to ensure that the issues and concerns of youth are effectively represented.

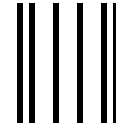

Applications are available online or you can call President Johnson's Office to learn more.
